This archive came from the Gail Holmes collection when he went to the VA Nursing home. They were left with Terry Latey in Bellevue, Nebraska and then taken to Utah for digitization. Due to life and the volume of documents they were not digitized and placed here until 2024. They were uploaded in June of that year. The collection will be made available to the public in the old file folders from his wifes music store where he knew how to find them. However, they would not be located by others. The organization was done by Terry Latey and Laura Anderson. There are collections such as, cemetery or settlements ect. which have their own alphabetical order in the original boxes and in their Kindex collection.

4) CP Cuther's Park

The spring was "improved," though records do not elaborate. Presumably, a wooden walk or path ways were constructed so spring water could be drawn without getting wet or muddy.

This rustic lined wagon and white canvas tent city must have been picturesque, to say the least.
